

AI Hospitality Growth Audit

One Time Engagement | Actionable. Specific. Built For You.

Not sure where to start with AI and marketing? This is your starting point.

The AI Hospitality Growth Audit is a comprehensive deep dive into your current marketing, operations, and guest experience. It is designed to show you exactly where AI can save you time, reduce costs, and drive more guests through your doors.

This is not a generic report. Everything I deliver is specific to your brand, your market, your budget, and your team's capacity. You walk away with a clear, actionable roadmap and not a 60 page deck that collects dust.

WHAT'S INCLUDED

- Full review of your current marketing strategy and execution
- Social media audit covering content, consistency, engagement, and brand voice assessment
- Loyalty program and email marketing evaluation
- Local and digital marketing analysis and trade area review
- AI opportunity map with specific tools and automations recommended for your operation and budget
- Competitive landscape overview
- 30 day growth action plan with prioritized recommendations
- One 60 minute strategy debrief call to walk through findings and answer questions

WHAT YOU WALK AWAY WITH

A clear picture of where your marketing is working, where it is not, and exactly what to do next. AI does the heavy lifting so your team does not have to.

WHO THIS IS FOR

Restaurant owners, hotel and resort operators, event venues, catering companies, and hospitality brands who know they need to do more with their marketing but are not sure where to start or which AI tools are actually worth their time.

Final pricing based on number of locations and scope of review.
