

# Markiq

AI Marketing Assistant | Built For Restaurants and Hospitality Brands

Meet Markiq. Your brand's AI powered marketing brain.

Markiq is an AI powered marketing platform built specifically for restaurants and hospitality brands who need the power of a marketing department without the overhead of one.

Most AI tools are built for tech companies and corporate teams. Markiq is built for the operator who is managing a team, a guest experience, and daily operations all at once and still needs to post on social media, respond to reviews, plan a promotion, and send an email campaign before the rush.

Markiq handles the marketing so you can focus on your guests.

## WHAT MARKIQ WILL DO FOR YOU

- Generate campaign ideas and marketing plans based on your location, season, and business goals
- Create on brand social media content, captions, and promotional copy in seconds
- Help you plan and execute local marketing strategies tailored to your trade area and market
- Provide AI powered review response suggestions so you never leave a guest unheard
- Deliver smarter local growth recommendations based on your data and market

## WHY MARKIQ IS DIFFERENT

Every tool inside Markiq is built with the hospitality operator in mind. No marketing degree required. No agency budget required. Just smart, practical AI that speaks your language and works at your speed.

## WHO THIS IS FOR

Independent restaurant owners, hotel operators, event venues, emerging franchise groups, and hospitality brands who want the competitive advantage of AI marketing without the complexity or the cost of traditional agency support.

*Founding members receive exclusive pricing that will never be available again after launch.*
